Glove Bubble

The Glove Bubble is a bench mounted enclosure designed to provide a sealed environment for samples as well as offer control of atmospheres internally.

The Glove Bubble is a fully portable system with gas connection and nitrile anti-static gauntlets as standard.

- Sealed environment
- Ergonomic Design
- Pre Tested and Validated
- Easy to Install
- Easy to Clean and Maintain
- Lightweight and Portable

Lab Bubble is a registered European Design: No. 001324610-0001

FUNCTIONAL SPECIFICATION

The Glove Bubble is a bench mounted enclosure that provides a sealed environment for samples. Each Glove Bubble includes utility (gas) connections to offer the control of atmospheres internally.

The inflatable seal expands to protect samples from any external contaminants and atmospheres. A transfer tunnel allows the user controlled access into the enclosure without having to remove the top cover.

COLOURS AVAILABLE

DIMENSIONS

TECHNICAL SPECIFICATIONS

Performance: Pressure decay test to EN14644-1

Gloves: Nitrile Anti-static Gauntlet
Conforming to EN374, EN388

ACCESSORIES

Internal Power Sockets
Temperature Monitoring
Humidity Monitoring
Additional Utility Ports
